

Mirage

I was looking for love
Thought I had it coming
Said: You're my true love
My heart was a-humming
Living together
for years and years
Starting with laughter
Ending in tears tears tears

Fought for the poorer
Gave it all I had got
Wipe out the difference
'Tween have and have not
To say to the knocking
Won't you please come in
To share is a virtue
To rob is a sin sin sin

Chorus:

All in all

Walls, camouflage

Life of lies

Mirage, mirage, mirage

All in all

Walls, camouflage

Life of lies

Mirage, mirage, mirage

Just a mirage...

Went out in the forest
To talk to the trees
The herbs and the flowers
The birds and the bees
But the spirits of nature
The moon and the sun
Were shot to their death
By the big money gun gun gun

Talked to my friends
Looked for the truth
Swam like a baby
In the fountains of youth
But the long gone young
Grows old and dies
Behind every truth
A ramfuckinshackle of lie lie lies

Chorus:

All in all

Walls, camouflage

Life of lies

Mirage, mirage, mirage

All in all

Walls, camouflage

Life of lies

Mirage, mirage, mirage

Just a mirage...
