

Fire

Intro: Da da da...

Fire away
Nothing cold can stay
Keep a steady hand
No sway
Fire away
Nothing cold can stay
Keep your indecisive hand at bay
My life was built on fire
Hot light heart's desire
To live, to love, to learn
To go by feel, to burn

Peaking with you, touching the flame
Living my life to the full with no shame
Smouldering embers deep down in my soul
Strolling with ease over fiery coal

Da da da...

Let lightning lit silhouettes glow in the dark
Feeding the furnace, nurture the spark
Whatever may come, be it lose or win
Holy the heat, may the sun scorch my skin
